

## Cloudian On-Premises Storage with Policy-Based Migration to Google Cloud

With Cloudian HyperStore®, you get petabyte-scale, Google Cloud-compatible storage right in your data center. You store data locally, with policy-based migration to Google Cloud. Cloudian's hybrid cloud solution provides limitless capacity with on-premises control and a single management view into all of your storage.

Manage both public and private storage pools as one with Cloudian HyperStore

### Policy-Based Tiering to Public Cloud

Retain some data on-premises for performance or compliance. Migrate the rest to the public cloud according to rules, such as frequency of use, age, file size, file type, and more. And Cloudian retains a local metadata copy of the migrated data, so you can instantly search all of your data — both locally and in the cloud.

## Configuration Options

### Cloudian HyperStore Appliance

Cloudian HyperStore appliances offer a simple-to-deploy solution for object storage.

- Fully-supported appliance
- Range of capacities starting with compact 1U models
- Hardware and software support services available

### Cloudian HyperStore Software

Deploy Cloudian HyperStore software on the industry-standard servers or virtual machines you choose. You get all the functionality and scalability of Cloudian HyperStore object storage and you lower costs by leveraging the servers and storage you already own.

- Runs on industry standard servers
- Licensed by capacity; pay-as-you-grow
- Full functionality of Cloudian HyperStore

## SOLUTION BENEFITS

- Google Cloud-compatible API
- Automated tiering to public cloud
- Metadata maintained on-prem for rapid search
- Combines limitless scalability of cloud with the control of on-prem
- Manage public and private storage pools as one
- Multiple configuration options

## USE CASES

### Enterprise

- Long term archiving
- Data backup
- Disaster recovery
- Multi-tier cloud storage

### Service Provider

- Multi-SLA cloud storage services

## CONFIGURATION OPTIONS

### Cloudian HyperStore Appliance

- Global 24/7 support
- Range of capacities starting with compact 1U models
- Hardware and software support services

### Cloudian HyperStore Software

- Runs on industry-standard servers
- Licensed by capacity, so you pay-as-you-grow
- Full functionality of Cloudian HyperStore
